

BENDING & TEMPERING EQUIP. "A"

Machine type: THBA (batch) A = automotive
THBA 80150 - 800 x 1500 mm
THBA 100200 - 1000 x 2000 mm

Glass field:

- . automotive sidelights
- . automotive backlights
- . others with single or double curvature

Possibilities:

- . with 2, 3 or 4 heating cells, oscillating type, or for even more continuous furnace
- . production for bent and tempered glass, with an option for flat glass as well

Bending System:

- . fast press bending system in line, of line for adjustments
- . male mould
- . female belt type mould on shuttle

Tempering System: . blowing box , easy change over

Glass Capacity: max ,

- . 800 x 1400 – 3,15 mm
- . 800 x 1600 – 4 mm
- . 1000 x 2000 over 4 mm

Output Capacity:

Pieces / hour	<u>THBA 2</u>	<u>THBA 3</u>
3,15 mm	51	76
4 mm	41	60
5 mm	32	48
6 mm	27	40
